

chorcha

India's largest collaborative convening

20-22 August 2024 | India Habitat Centre, Delhi

In an increasingly 'digital-first' world, charcha has demonstrated that face-to-face interactions serve as a powerful incubator for new ideas, offering safe spaces for open dialogue, collaborative problem-solving and cross-pollination of perspectives that might otherwise have never been imagined.

Beyond visible outcomes of formal sessions, charcha derives its true power from intangible elements such as spontaneous meet-ups, conversations in hallways, shared moments of vulnerability and the cultivation of a supportive and evolving community.

Foreword

As India's largest collaborative convening, charcha 2024 brought together an impressive array of stakeholders including government leaders, industry experts, social entrepreneurs, philanthropists, funders and grassroots activists over three-days (20th-22nd August 2024) to the India Habitat Centre, Delhi.

This multi-stakeholder engagement approach facilitated rich dialogue and collaborative solution-finding for India's most pressing livelihood development challenges, making charcha an essential platform for spotlighting the nation's inclusive growth agenda, focused towards creating pathways for a "Viksit and Inclusive Bharat@100."

*As we move forward on
the path of becoming
Viksit Bharat@2047,
platforms like charcha
remain crucial in
fostering dialogue,
sharing best practices
and building consensus
and trust amongst
diverse stakeholders
including samaj, sarkar
and bazaar*

More than **200 speakers** contributed diverse perspectives and facilitated crucial conversations across themes like inclusion, technology for good, rural livelihoods, women empowerment, policy governance and more. Conversations addressed critical challenges across multiple sectors, including workforce participation, technology adoption and rural development. Key themes included improving female labor force participation, integrating AI responsibly into the workplace, strengthening digital inclusion and enhancing skill development programs.

charcha 2024 highlighted several transformative approaches to achieve these goals, including the role of AI in societal transformation, the importance of direct cash transfers and strategies for digital inclusion. Discussions emphasized that including women in the workforce could boost India's GDP by 27%, while also addressing the challenges faced by persons with disabilities, representing a significant talent pool of over 100 million Indians. charcha 2024 also stressed the importance of community-driven change, sustainable agricultural practices as well as water security for rural development. Notably, the discussions advocated for a shift from job-seeking to job creation, with an emphasis on combining manufacturing with engineering and design to generate high-quality employment opportunities.

Looking ahead, charcha 2024 has set the stage for continued collaboration and action toward achieving India's development goals. The convening's comprehensive coverage of critical issues and emphasis on implementable and scalable solutions demonstrates the evolving maturity of India's development discourse.

As India moves forward on its path to becoming Viksit @2047, platforms like charcha will remain crucial in fostering dialogue, sharing best practices and building consensus and trust amongst diverse stakeholders.

The next edition, charcha 2025 (12th-14th November 2025), promises to further advance critical conversations and collaborations, and track progress on plans made and outcomes targeted.

Roadmap to a 'Viksit & Inclusive' India@100

Opening plenary

Key takeaways

India must focus on populous states like UP, Bihar, MP, and Jharkhand to leverage its demographic dividend while addressing nutrition, health, and inclusivity challenges

Agility in the job market is crucial for improving women's employment and including persons with disabilities (PWD) by matching skills with job opportunities

Young people's media consumption reflects a lack of engagement options, serving as a distraction due to the availability of free data

Empowering women and PWD through skilling programs can help overcome barriers and enhance professional advancement

Panel breakup

Moderator- Shekhar Gupta | Founder - ThePrint

Panelists- Arti Ahuja- IAS | Former Secretary- Ministry of Labour & Employment, Govt. of India

Amitabh Kant- IAS | G20 Sherpa, Govt. of India

Dr. R S Sharma | Former CEO, National Health Authority

Inclusion &
circularity

Climate and equity: pathways for building community resilience

Co-host

HSBC

Key takeaways

Integrating ESG and climate considerations is essential for business growth, yet climate-related programs for the base of the pyramid often still rely on a top-down approach

The current system unfairly places the burden of transitioning to natural farming solely on farmers; philanthropists and impact investors can aid this shift by providing funding, inputs, and capacity building

Sustaining economic and livelihood development requires addressing and preserving natural systems that support farming, but the lack of measurable outcomes often leads to inadequate funding

Panel breakup

Keynote speaker- Faiz Ahmed Kidwai- IAS | Additional Secretary- Ministry of Agriculture and Farmers Welfare, Govt. of India

Report Launch - Alok Majumdar | Managing Director, Global Head of Philanthropy & Head of Sustainability, HSBC India

Moderator- Anant Bhagwati | Partner, The Bridgespan Group

Panelists- Romit Sen | Senior Vice President- Sustainability, HSBC

Shivani Gupta | Co-CEO, Womanity

Arindom Datta | Senior Advisor/ Independent Director Climate/ Agribusiness/ Technology

Dr. Sejal Worah | Programme Director, WWF India

Aparna Dua | Director, The Blended Finance Company

Inclusion &
circularity

Circularity

Co-host

H&M FOUNDATION

Inclusive value chains

Co-host *H&M FOUNDATION*

Value chains significantly affect social, environmental, and economic sectors, and must focus on sustainability and social impact

Inclusive value chains ensure that all stakeholders are seen, heard, and actively engaged in the change process

A key challenge is addressing the root problem of citizen disengagement from their basic responsibilities

Panel breakup

Keynote speaker- Amit Yadav (IAS) | Secretary, Dpt. of Social Justice & Empowerment, Govt. of India

Moderator- Akshay Soni | Managing Partner, The/Nudge Institute

Panelists- Anish Malpani | Founder, Without (by Ashaya)

Gayatri Divecha | Head - Sustainability & CSR Godrej Industries Ltd. & Associate Companies

Indumathi | Waste Entrepreneur, DWCC

Vishal Chowla | Leader, Roundglass Foundation

Urban
livelihood

charcha

Solving the skills conundrum:
can technology & processes
unlock for the scale with quality?

Co-host *Generation*
INDIA

Key takeaways

Real-time data capture and eKYC ensure accurate, reliable, and standardized candidate information across platforms

Mobile apps, job platforms, and auto-scaling servers streamline candidate registration and manage high data volumes efficiently

Addressing partnerships and connectivity challenges in remote areas improve access to skill development opportunities

Focused strategies support and integrate women into the workforce, driving productivity and diversity

Panel breakup

Moderator- Ankur Batra | Vice President, Business Development, Generation India Foundation

Panelists- Arunesh Singh | CEO, Generation India

Lohit Bhatia | President Workforce Management, Quess Corp

Sunil Dahiya | Executive Vice President Skilling, Wadhwani Foundation

Dr. Rishikesh Patankar | Vice President, Govt. Programs Division National Skill Development Corporation

Capital & philanthropy

Co-host

Capital with purpose: navigating fundraising landscape

Co-host  Meta

Key takeaways

Philanthropy must support organizations in adapting and reinventing their approaches to meet evolving challenges

Solutions should address the interconnectedness of problems, requiring a convergent flow of philanthropic efforts

Open dialogue between donors and grassroots organizations is essential to align priorities and ensure that donor strategies reflect actual needs on the ground

Panel breakup

Moderator- V Sriram | Managing Director-Partnerships, The/Nudge Institute

Panelists- Aloka Majumdar | Managing Director, Global Head of Philanthropy & Head of Sustainability, India, HSBC

Deepali Khanna | VP - Asia Regional Office, The Rockefeller Foundation

Kurush Irani | President Group, CSR Bajaj Finserv

Prabhakar L | EVP & Head, Social Investments, ITC

Women
empowerment

charcha

India's largest collaborative convening

Economically empowering
women in the age of AI: from
glass ceilings to open doors

Co-host [LinkedIn](#)

Key takeaways

AI empowers women, with many women-owned businesses adopting AI tools and training programs enhance their participation in tech

Gender-intentional policies are essential for AI development to prevent biases, requiring collaboration between government and industry for inclusivity

Clean, unbiased, and regionally relevant data is vital for effective AI development in India, promoting understanding across diverse communities

Bridging the digital divide and enhancing digital literacy among women and underserved populations is crucial for equitable access to AI opportunities

Panel breakup

Moderator- Aditi Jha | Board Director & Country Head: Legal & Government Affairs, LinkedIn

Panelists- Aparajita Bharti | Founding Partner, TQH

Archna Vyas | Director - Policy & Comms, Bill & Melinda Gates Foundation

Kanta Singh | Deputy Representative, UN Women India

Nidhi Bhasin | CEO, Nasscom Foundation

Future of women in work: improving female LFPR by 2030

Key takeaways

The employability gender gap in India is 51%, with only 19.2% of women in the labor force compared to 70.1% of men, indicating urgent action is needed

Diverse data sources are crucial for tracking progress, with local women entrepreneurs as key data gatherers in rural and urban areas

Higher-paying jobs attract more women, while low-income jobs lack sufficient incentives amid family and social barriers

Women experience multiple career breaks, requiring redesigned pathways and effective return-to-work programs

Panel breakup

Keynote speaker- Renu Sud Karnad | Former MD, HDFC

Moderator- Deepa Nagraj | Global Head of Comm, ESG & CSR, Mphasis

Panelists- Varun Khaitan | Co-Founder, Urban Company

Ajaita Shah | Founder, Frontier Markets

Sharon Buteau | Executive Director, KREA University

Co-host

Lend A Hand India
Building A Skilled Tomorrow

Key takeaways

Integrating fine arts with STEM subjects is crucial, as both soft and hard skills are important, requiring schools to possess the right expertise for effective execution

Internships should include local employers, such as beauty salons and garages, to incorporate entrepreneurial elements into the curriculum alongside large corporations

Mandatory vocational training and public-private initiatives are essential for evolving the secondary education system to achieve broader outcomes

Panel breakup

Moderator- Raj Gilda | Co-Founder , Lend-a-Hand India

Panelists-

Shagun Sabarwal | Regional Director for Asia, Co-Impact

Amrita Mishra | Co-Founder, DarkChocoBitz

Neeti Sharma | CEO, TeamLease Digital

Vandana Bahri | Head - GIRL Capital, CIFF

Pratiksha Mishra

Urban
livelihood

Navigating an AI-driven workplace: from challenges to opportunities

Co-host **LinkedIn**

Key takeaways

India's labor market faces imbalances, with 44% of workforce employed in agriculture contributing only 14% to GDP, highlighting "employed poverty."

AI presents opportunities to democratize resources and enhance economic prospects, especially for marginalized groups, necessitating upskilling in AI and digital literacy.

AI can support roles in healthcare and agriculture without displacing jobs, with skills-first programs essential for improving social mobility among women and rural communities

Effective integration of AI in India requires clean, unbiased data and AI fluency tailored to local contexts to foster understanding across diverse populations

Panel breakup

Keynote speaker - Manish Sabharwal | Vice Chairman, TeamLease

Moderator - Ruchee Anand | Senior Director- Talent & Learning Solutions, LinkedIn

Panelists - Manu Chopra | Co-Founder, Karya
Meg Garlinghouse | VP Social Impact, LinkedIn
Puneet Chandok | President, Microsoft India
Shankar Maruwada | CEO & Co-Founder, EkStep

charcha

India's largest collaborative convening

The power of evidence:
how impact can be the catalyst
in skills

Co-host *Generation*
INDIA

Key takeaways

Tracking income growth, career progression, and employer success assesses the lasting impact of skilling programs

Continuous evaluation and a global skills taxonomy drive data-driven decisions, adaptability, transparency, and evidence-based policies

Addressing systemic livelihood challenges, especially for women, is key to empowering them through skills to overcome barriers

Skilling programs must adapt to the evolving needs of learners and the job market to create a lasting impact

Panel breakup

Moderator- Vivek Pandit | COO, Generation India Foundation

Panelists- Shriya Sethi | Director of Social Impact, McKinsey and Co

Priyanka Yalamanchili | Global Monitoring & Evaluation Manager, Generation India Foundation

Artisanal renaissance: India & traditional crafts

Co-host  TEAMWORK
CELEBRATING THE ARTS

Key takeaways

Artisans are using digital tools to market their crafts directly, improving financial sustainability and adapting to consumer trends

The demand for handmade and sustainable products supports long-term growth in the craft sector

Artisans must balance business scaling with preserving the unique identity of traditional crafts

To build resilience, it's essential to diversify markets, maintain personal design connections, and address export dependencies

Panel breakup

Moderator- Dr. Dimple Bahl | Associate Professor - Design, National Institute of Fashion Technology

circularity

Co-host

H&M FOUNDATION

Scaling green entrepreneurship

Co-host H&M FOUNDATION

Key takeaways

Engaging youth is crucial for effective climate action, as their involvement is vital for environmental sustainability

Many green entrepreneurs are tech-savvy young individuals seeking better lives for themselves and their communities, highlighting a trend in scalability

Long-term livelihood improvements require training and upskilling to be complemented by solutions that address both the supply and demand sides

Empowering youth as change catalysts requires a blended approach that develops skills and provides capital for green enterprises

Panel breakup

Moderator- Anjum Khalidi | Senior Director of Development, BOMA

Panelists- Arpit Sharma | CEO, Green Jobs Sector Skill Council

Madam Lynett | Deputy Director, Department of Social Protection, Government of Kenya

Empowering leadership through AI for good: gen AI masterclass

Co-host 

Key takeaways

AI influences all sectors, including energy, healthcare, and agriculture, creating opportunities to enhance work across various functions

Responsible AI encompasses fairness, accountability, explainability, and transparency

Developing AI inclusively and responsibly is crucial for engaging audiences in a personalized and meaningful manner

Trust in AI systems is a significant barrier for enterprises, but applying responsible AI principles and utilizing diverse, continually improving data can mitigate this challenge

Panel breakup

Women
empowerment

charcha

India's largest collaborative convening

Women breaking barriers for
women: livelihood, equity, &
social justice

Co-host  **TEAMWORK**
CELEBRATING THE ARTS

Key takeaways

Empowerment is claimed, not given; women must actively assert their power and engage with challenges persistently

Women face fewer opportunities to fail than men and failure should be viewed as part of innovation; funders need to support women's failures

The workplace lacks trust rather than innovation or funding, with a crisis of imagination preventing rural girls and women from being seen as leaders

Diversity and inclusion require "patience capital," emphasizing a long-term commitment to growth and career development for women

Panel breakup

Moderator- Nishtha Gautam | Author & Academic

Panelists- Sampat Devi | Founder, Gulabi Gang

Surabhi Yadav | Founder & CEO, Sajhe Sapne

Pooja Pande | Co-CEO, Chambal Media

Best collaborative convening

Unleashing potential:
empowering all abilities in
livelihoods

Co-host

Key takeaways

India's disability population of over 10 crore represents a significant talent pool, making it essential for businesses to engage this sector to achieve a developed India

True accessibility requires more than ramps; implementing Section 40 of the RPWD Act is crucial for integrating the disabled population, which forms a substantial consumer base

The main issue lies not in the number of people with disabilities but in limiting perceptions that hinder recognition of their potential and abilities

Panel breakup

Keynote speaker- Rajesh Aggarwal- IAS | Secretary Dept. of Empowerment of PwD, Govt.of India

Narrative shapers: media mavericks & stories of impact

Co-host  TEAMWORK
CELEBRATING THE ARTS

Key takeaways

Violence is so normalized and glamorized in mainstream films that it takes extreme portrayals to elicit any reaction, reducing real-life tragedies to mere statistics

Cinema can humanize characters, fostering empathy through shared emotions like fear instead of glorifying violence

Films should explore the aftermath of violence—hopelessness, anger, and loneliness—rather than depicting the act itself

Stories subtly shape perceptions and responses to societal issues, reflecting their significant yet often unconscious influence on audiences

Panel breakup

Moderator- Sanjoy Roy | Managing Director, Teamwork Arts

Google

Digital inclusion for Viksit Bharat@100

Co-host Google

Key takeaways

Government-created public goods have significantly advanced financial inclusion, as seen in increased transaction volumes and supporting infrastructure

The digital divide between urban and rural poor remains, with an even wider gap in access and usage among women, especially in digital payments

Achieving inclusion through technology necessitates strong collaboration as a critical success factor

Addressing digital policy and public infrastructure from a feminist perspective is vital, as studies indicate that digital interventions in rural India have a multifaceted impact when women are the primary beneficiaries

Panel breakup

Moderator- Megna Sankaranarayanan | Head of Industry- Fintech, Google

Day 3

22nd August, 2024

Is enterprise the entire prize? <i>Rural livelihood</i>	87
Sunsetting extreme vulnerability: institutionalising economic inclusion for the rural poor <i>Rural livelihood</i>	89
Voices from the ground: scaling EIP across states <i>Rural livelihood</i>	91
Water security and livelihoods: collaborative strategies for sustainable futures <i>Communities & collaboratives</i>	93
AI: friend or foe?	95

Viksit gaon, viksit bharat

Opening Plenary

Key takeaways

Addressing global issues requires an integrated approach, harnessing rural India's economic potential beyond a poverty-centric view

Collective ownership and decentralized models are vital for resilient rural economies, driven by empowered local governance

Elevating rural productivity depends on comprehensive skilling, entrepreneurship, government coordination, and financial access

Strengthening microenterprises, especially women's entrepreneurship, is essential for economic resilience through focused support and regulatory reforms

Panel breakup

Keynote speaker- Atul Kumar Tiwari- IAS | Secretary Ministry of Skill Development and Entrepreneurship, Govt. of India

Moderator- Atul Satija | Founder & CEO, The/Nudge Institute

Panelists- Arun Maira | Former Chairman, BCG
Padma Shri Renana Jhabvala | President, SEWA Bharat
Vijay Mahajan | Founder, Basix, Pradan

Inclusion &
circularity

Clearer vision, brighter futures:
addressing the presbyopia gap

Co-host **THE/NUDGE**
INSTITUTE

Key takeaways

Accessing affordable eyeglasses in rural areas is challenging, often requiring travel to urban centers, incurring additional costs and lost wages

Task sharing in primary care allows health workers to conduct vision screenings and dispense reading glasses, enhancing maternal health services

Eyeglasses serve as a livelihood and road safety intervention, essential for effective learning, work productivity, and safe navigation

Integrating eyeglasses into community touchpoints, like crop input stores, can significantly improve access for farmers and drivers needing clear vision

Panel breakup

Keynote speaker- Dr. Indu Bhushan - IAS | Former-CEO, Ayushman Bharat

Moderator- Amit Gupta | COO, The/Nudge Institute

Panelists- Abigail Steinberg | Executive Director, Livelihood Impact Fund

Ella Gudwin | Global CEO, VisionSpring

Narasimha Narayanan | President, EssilorLuxottica South Asia.

Peyush Bansal | Founder, Lenskart

Rural
livelihood

prcha
s largest collaborative convening

Imagining tomorrow: scaling
regenerative agriculture for a
sustainable India

Key takeaways

Farming is high-risk, requiring affordable capital and better access to effective insurance, including parametric options, to address inadequate climate-related protections

Farmers are increasingly using digital tools like Google, YouTube, weather apps, and pest identification apps, showing a growing reliance on technology to tackle climate challenges

Certification should evolve into an integrated data management system that includes extension services, credit access, and carbon financing, with the Government of India actively developing a platform

Panel breakup

Moderator- Prachur Goel | Director, Socratus

Panelists- Jasmer Dhingra | Director, Program, IDH

Minhaj Ameen | Director of Strategic Operations, Finance and Administration, Agroecology Fund

Namita Singh | Director, User Experience, Digital Green

Dr. GV Ramanjaneyulu | Director, Centre for Sustainable Agriculture

Rural
livelihood

charcha

India's largest collaborative convening

Language as the first step for the last mile

Co-host **TATA STEEL FOUNDATION**

Key takeaways

The shift to modern technology has led young mothers to favour digital content over traditional oral practices, risking cultural erosion

Language connects marginalized communities to opportunities and identity but can also create exclusion, hindering innovation from those outside mainstream conversations

Understanding local languages improves learning outcomes for children and highlights the economic disadvantages faced by individuals who struggle with language barriers, leading to potential financial losses

Panel breakup

Moderator- Jiren Xavier Topno, Head Tribal Identity, Tata Steel Foundation

Panelists- Shiv Shankar Kandeyong | Manager, Tribal Languages, Tata Steel Foundation

Bangwang Losu | Recipient, Samvaad Fellowship 2017

Amabel Susngi | Recipient, Samvaad Fellowship 2021

Rural
livelihood

charcha

India's largest collaborative convening

Farming the future: what will it
take to secure livelihoods & drive
inclusion for smallholder farmers?

Co-host

Key takeaways

The development sector often struggles to listen, approaching communities with predetermined solutions in a top-down manner rather than understanding their needs

Technology solutions struggle to gain farmers' acceptance but become more relatable when presented by trusted individuals

Experimenting with technology for smallholder farmers poses a high risk. Strong support from FPOs and programs is essential for effectiveness and adoption

Panel breakup

Moderator- Krishnan Hariharan | Senior Practice Leader, TechnoServe

Panelists- Aparna Bijapurkar | Managing Director & Partner, BCG

Chetna Gala Sinha | Founder & Chairperson, Mann Deshi Bank and Mann Deshi Foundation

Dipanwita Chakraborty | Regional Director CSR, APAC Cargill

Nishant Kumar | Head of Sustainability Flipkart Group, Social & Environmental Impact Advisor-
Walmart

Rural
livelihood

Is enterprise the entire prize?

Co-host **TATA STEEL FOUNDATION**

Key takeaways

Economic independence alone cannot effectively tackle deeper societal challenges like domestic violence, even for working women

While money and enterprise enhance lives, their impact on society, communities, and traditions must be considered for true equality beyond just financial aspects

Women's market participation inspires them to revive traditional crafts using local materials, creating valuable products while preserving cultural identity

Panel breakup

Moderator- Smita Verma | Lead Gender and Community Enterprise, Tata Steel Foundation

Panelists- Malti Singh | Social Changemaker

Deepantri Sardar | Former Mukhiya, Tetla Panchayat & Social Change Maker

Dwipanita Rabha | Fellow, Tribal Leadership Program 2022

charcha

Sunsetting extreme vulnerability: institutionalising economic inclusion for the rural poor

Co-host BILL & MELINDA
GATES foundation

Key takeaways

Simplifying design enhances operational excellence by reducing the cognitive load on field staff, enabling better focus on coaching and support

Continuous process monitoring provides valuable insights, helping stakeholders identify gaps and make real-time adjustments for improved outcomes

Unbundling interventions lead to more adaptable and cost-effective poverty alleviation strategies tailored to specific contexts and needs

Panel breakup

Moderator- Anjani K Singh | Senior Program Officer, Bill & Melinda Gates Foundation

Panelists- John Paul | Senior Director, The/Nudge Institute

Madam Lynett | Deputy Director Department of Social Protection, Government of Kenya

Co-host

BILL & MELINDA
GATES foundation

Voices from the ground: scaling EIP across states

Co-host BILL & MELINDA
GATES foundation

Key takeaways

Transformational change occurs at three levels: being, knowing, and doing, which build confidence and capabilities over time

Scaling Economic Inclusion Programs (EIP) for marginalized communities requires understanding their needs through coordinated interventions to increase incomes and assets

Tools like participatory wealth ranking and poverty assessments help identify community disparities and target physical and financial capital effectively

Recognizing the importance of commons is essential for ecological restoration, creating economic opportunities for the poor, and promoting social justice

Panel breakup

Moderator- Sreya Mozumdar | Director- National Partnerships, The/Nudge Institute

Panelists- Subrata Singh | Executive Director, Foundational for Ecological Security (FES)

Saroj Mahapatra | Executive Director, PRADAN

Sushant Verma | Asia Regional Director, Trickle Up Inc.

Dr. Marcella D'Souza | Director, WOTR Centre for Resilience Studies (W-CReS)

Communities &
collaboratives

charcha

India's largest collaborative convening

Water security & livelihoods:
collaborative strategies for
sustainable futures

Co-host 
CHANDRA
FOUNDATION

Key takeaways

Community engagement is essential for revitalizing water bodies, integrating local knowledge and needs into management strategies

Technological innovations enhance water management by offering tools for monitoring quality and availability, promoting efficient resource use

Rehabilitation of local water bodies improves agricultural productivity through better irrigation systems, boosting crop yields and food security

Sustainable solutions to rural distress must enhance water access and contribute to the socio-economic well-being of communities facing water scarcity

Panel breakup

Moderator- Gayathri Nair Lobo | CEO, ATE Chandra Foundation

Panelists- Prasanna Khemariya | CEO, Srijan

Sunil Chavan - IAS | Former Secretary, Soil and Water Conservation Dept., Govt. of Maharashtra

Vinod Kulkarni | CSR Head, TATA Motors

AI: friend or foe?

Closing Plenary

Key takeaways

The rise of AI automation raises concerns about job losses, prompting discussions on the future of work and obsolete employment

AI can enhance human abilities by providing insights and analytics, improving decision-making in fields like healthcare

AI systems may introduce biases and discrimination, along with data privacy concerns, emphasizing the need for ethical guidelines

AI technologies can tackle complex global challenges, such as climate change and resource management, through data-driven solutions for efficiency and sustainability

Panel breakup

Moderator- Guru Bhat | Senior Director - Engineering, Google

Panelists- Anjali Bansal | Founder & Chairperson, Avaana Group

Neelam Dhawan | Independent Director, Hindustan Unilever Ltd.

Sharad Sharma | Co-Founder & CEO, iSPIRT

Umakant Soni | Co-Founder, AI Foundry

The power of convening

Dr. Chintan Vaishnav

Mission Director - AIM
NITI Aayog

These kinds of events are catalytic for building the ecosystem. They're important because most people worth inviting to such events often have no time to attend. Creating a venue where they can come together can spark many interesting ideas, acting as a force multiplier.

“

I got more educated, more enlightened and I suddenly got a lot of energy sitting in these sessions (at charcha). It let's you step back & realise some of the problems we are facing as India & the work we need to do.

Peyush Bansal

Co-Founder & CEO
Lenskart

Puneet Chandok

President
Microsoft India

Conversation like charcha are important because they bring all stakeholders together & begin an honest dialogue on how we can come together and solve some of the biggest problems in India to move the country forward

The power of convening

Shankar Maruwada
Co-Founder
EkStep

“The social sector in India is at a tipping point, with a lot of young, talented individuals stepping in to solve the many diverse problems we face. Convenings like this allow organizations to connect with each other, individuals to engage with one another and be inspired. The more we converse, the more we connect, the better it is for each one of us, and better it is for billions of citizens we are trying to serve.”

I am absolutely thrilled to be at charcha. I have never had so many inspiring conversations.

Meg Garlinghouse
VP Social Impact
LinkedIn

Deepali Khanna
VP - Asia Regional Office
The Rockefeller Foundation

“charcha is really important because we need to bring different actors together—what I call the “unusual actors.” They generally do not come together to share what they are doing and learn from each other. So, you create a platform for these unusual actors to get inspired, connect, and hopefully co-invest and collaborate, driving towards scalable solutions.”

The power of convening

Guru Bhat

Senior Director - Engineering
Google

“The best part of charcha for me has been the ability and opportunity to interact with a lot of people. They are a diverse set of experiences, a diverse set of problem statements and solutions, perspectives that I don’t often encounter in my workplace. So the fact that I am able to find this at a convening like charcha is very inspiring, it’s thought-provoking, and it opens up my mind to a million possibilities that exist in how we can bring about really good solutions for the planet.”

“

Convenings of decent people with good intentions and skills have always been important for thousands of years—that’s how history has moved forward: through conversations. Like charcha, any convening of good people, where they come together and engage in rational discourse, is important.

Kailash Nadh
CTO Zerodha

Madam Lynett Ochuma

Deputy Director, Dept. of Social
Protection, Govt. of Kenya

“This is a global event and I was able to meet people from different sectors, people with different expertise. When we meet we are able to identify areas where we can leverage, where we can develop synergies and where we can also have partnerships. Through this, I’ve been able to network, I’ve been able to identify partners whom I can work with, which is very good for development.”

The power of convening

Chetna Gala Sinha

Founder & Chairperson
Mann Deshi Bank
and Mann Deshi Foundation

charcha has always been about coming back to meet people in the sector. There's so much to learn from each other, and that's why I like this platform. We talk about mainstream issues, which are important.

“

I always believe that when we come together for these kinds of activities, we expand the realm of knowledge, help people collaborate with each other, and stimulate new thoughts and ideas.

Thampy Koshy

Managing Director & CEO
ONDC

Jayesh Ranjan (IAS)

Special Chief Secretary
- IT, I&C Govt. of
Telangana

So, by and large, this is how events (charcha) need to be curated. You bring different stakeholders together and, make each of them understand that everyone has the potential of doing something which you can complement to your own efforts

charcha: Journey so far

Since 2020, charcha has emerged as India's pre-eminent livelihood convening, uniting visionaries and change makers from government, civil society and markets, and fostering conversations and collaborations towards creating resilient livelihoods.

Collaboration

- CSRs, foundations
- Govt. policymakers
- Civil society orgs.

Inspiration

- Thought Leaders
- Changemakers
- Social entrepreneurs

Insights

- Workshops
- Panels
- Masterclasses
